PROFESSIONAL SUMMARY

Innovative software developer with focus on creating robust, user-friendly applications. Drive successful project outcomes through strong coding skills, problem-solving abilities, and collaborative teamwork. Consistently deliver high-quality software solutions by leveraging expertise in various programming languages and development frameworks.

WORK HISTORY

Frontend Developer

Heliscom Technologies

⌚ 02/2023 - 06/2025 📍 Abakaliki, Ebonyi state, Nigeria

- Conducted user research that improved client project outcomes, resulting in a 20% increase in user satisfaction.
- Designed wireframes, prototypes, style guidelines, and user personas, leading to a 30% reduction in design revision cycles.
- Implemented designs into responsive, high-performance frontend code, contributing to a 25% increase in user engagement.
- Integrated frontend interfaces with backend systems, achieving a 15% improvement in software delivery time.
- Collaborated closely with team members on critical project decisions, enhancing project efficiency by 20%.

Frontend Developer | UX/UI Design Tutor

JEEF Africa

⌚ 12/2023 - 07/2024 📍 Abakaliki, Ebonyi state, Nigeria

- Assisted in developing the company website, resulting in a 40% increase in user engagement.
- Tutored students and 3MTT fellows of Cohort 1 in UX/UI design and web development, leading to a 90% proficiency rate among participants.
- Guided two 3MTT fellows in winning the program's monthly talent showcase, highlighting the effectiveness of the training provided.
- Played a key role in the success of the educational program, contributing to a 50% increase in enrollment for subsequent cohorts.
- Initiated a successful collaboration with the 3MTT Community manager as a volunteer to refine user engagement in 3MTT program, boosting user involvement in the next cohort by 18%.

Software Engineering Intern

Exotic MGA Tech Hub

⌚ 01/2023 - 05/2023 📍 Abakaliki, Ebonyi state, Nigeria

- Enhanced my Database, Python, Flask and FastAPI framework skills, leading to a 20% improvement in code efficiency.
- Assisted in the integration of cloud services into existing products, expanding service offerings.
- Engaged in continuous learning initiatives to keep up with the latest in cloud computing trends.

Software Engineering Intern

ALX Africa

⌚ 07/2022 - 08/2023 📍 Nairobi, Kenya

- Strengthened my proficiency in problem-solving, C programming, Python, data structures, algorithms, and frontend technologies, leading to a 40% reduction in project development time.
- Collaborated in a team of three to develop a simple web server, improving team productivity by 25%.
- Reimplemented the printf library in a team of two, enhancing code reliability and efficiency by 20%.
- Worked with a team of four to develop a travel accommodation web application for our final project.

EDUCATION

B.Sc - Computer Science

Alex Ekwueme Federal University, Ndifur Alike Ikwo, Akwa Ibom, Nigeria

⌚ 09/2019 - 12/2023 📍 Ebonyi State, Nigeria

Associate degree - Software Engineering

Holberton School, United States of America, Partnership with ALX Africa

⌚ 07/2022 - 08/2023 📍 Nairobi, Kenya

PROJECTS

BiteSwift Mobile App

An Imaginary Food delivery app that takes in orders from a user and the user is able to track their order from the restaurant they ordered from.

Link: <https://github.com/kingieX/BiteSwift>

Sentiment Analyser

A Socialmedia Sentiment Analyzer, powered by Vite, React, and FastAPI that delivers real-time sentiment analysis of social media posts.

Link: https://github.com/kingieX/Sentiment_analyzer

Mediroute

A real-time hospital operations dashboard aimed at improving staff scheduling and patient flow management. It leverages optimization algorithms, real-time tracking, and visualization to streamline staff allocation and reduce patient wait times.

Link: <https://github.com/kingieX/MediRoute>

FinVault

A mobile-first personal finance and investment tracker designed to help users manage spending, track financial goals, and gain personalized financial insights through AI.

Link: <https://github.com/kingieX/FinVault>

SKILLS

JavaScript Typescript API Integration

React.js React Native Next.js

TailwindCSS Node.js DBMS

Data Structures & Algorithms

User Research Techniques ExpressJs

Figma Design Tools Project Management

Responsive Web Design GraphQL

Version Control with Git AI Automations
